ClearStar Service Descriptions:

National Criminal Database (NCD) Checks

A National Criminal Database (NCD) Check is a check of a proprietary database, containing more than 1 billion records from counties, state departments of corrections (DOC), and state administrative offices of the courts (AOC). The NCD Check also includes the National Sex Offender Registry (NSOR) Check and the Global Watch List Check.

County Court Criminal Record Searches

A County Court Criminal Record Search is a search of felony and misdemeanor county court criminal records located at the county seat or central county courthouse and are available from county courts located in over 3,100 counties nationwide. All legally reportable felony and misdemeanor conviction records, pending cases, and non-conviction records found are reported.

Social Security Number (SSN) Trace

A Social Security Number Trace verifies the input name is associated with the input SSN in a proprietary database and provides an alias and address history for the name and SSN.

Driving Record Check

A Driving Record Check is a check of a specific state driving record. A Driving Record Check is available from 50 states and the District of Columbia and includes infractions, violations, misdemeanors, felonies, points, and current status. The standard scope is a 3-year driving record. A broader scope may be available from some states for an additional fee. State access fees apply. A signed authorization or state-specific authorization may be required.

Employment Verifications

Employment Verification is a verification of employment with a specific employer. A standard Employment Verification includes as applicable and available: verifier's name and title, full-time or part-time, dates of employment, title, salary, separation reason, voluntary/involuntary, eligibility for rehire, and reason for any ineligibility for rehire. The employer may require a signed authorization for release of information.

Education Verifications

An Education Verification is a verification of a degree or diploma from or attendance at a specific educational institution. It includes as applicable and available: verifier's name/title, type of degree or diploma, major, and graduation date and/or attendance dates, GPA. The educational institution may require a signed authorization for release of information.

State Criminal Record Database Searches and Checks

A State Criminal Record Database Search or Check is a search or check of a state court or state law enforcement agency criminal record database, respectively. The type of records, record details available, record quality, accuracy, completeness, coverage, comprehensiveness varies state-to-state and database-to-database. A Criminal Record Database Search or Check is not available in every state. Call for pricing.

Employment Credit Report

An Employment Credit Report provides credit history, payment history, debts, public records, aliases, address history, and some employment history. An Employment Credit Report is for employment purposes only, and the information provided is more limited than a non-employment credit report. State and local laws may prohibit or restrict your procurement of a credit report for employment purposes. Federal, state, and local laws may limit or prevent your use of the information provided. A signed authorization is required. Call for pricing.
